Annual Health Examinations

Fecal Examination

Heart Worm Antigen Test

We make every effort to ensure the safety and happiness of your pet during their stay. It is your responsibility as the owner to inform us if your pet has EVER exhibited any of the following behaviors:

- CLIMBING
- DIGGING
- HARD TO HANDLE
- AGGRESSION (towards people and other dogs)
- HARD TO CATCH/WON'T COME WHEN CALLED
- CHEWING
- FEAR OF STORMS/NOISE SENSITIVITY
- ESCAPE ARTIST
- SEPARATION ANXIETY
- ALLERGIES

If your dog falls into ANY of these categories, you may request that they be allowed to exercise in designated play areas provided you understand that there is a risk involved. You do so with the awareness that if they get out and will not let us catch them, we will immediately call you for your assistance but we cannot be held responsible if they find their way off premises.

It is the owner's responsibility to make sure that the kennel facility knows and understands fully any special instructions/needs, whether it is medication, limited activity, dog in season, cannot be exercised off the leash, private play yard, etc.

If for any reason, your dog needs veterinary care while staying with us, unless otherwise pre-arranged with your own veterinarian, we will use the veterinarian that services our kennel or emergency veterinarian on call after hours.
